With a large assortment of special varieties.

Ofer Developed a detailed protocol for Wax growing and post harvest treatment

On the clock Daily during the season
with significant quantities

Breeds and selects his own varieties

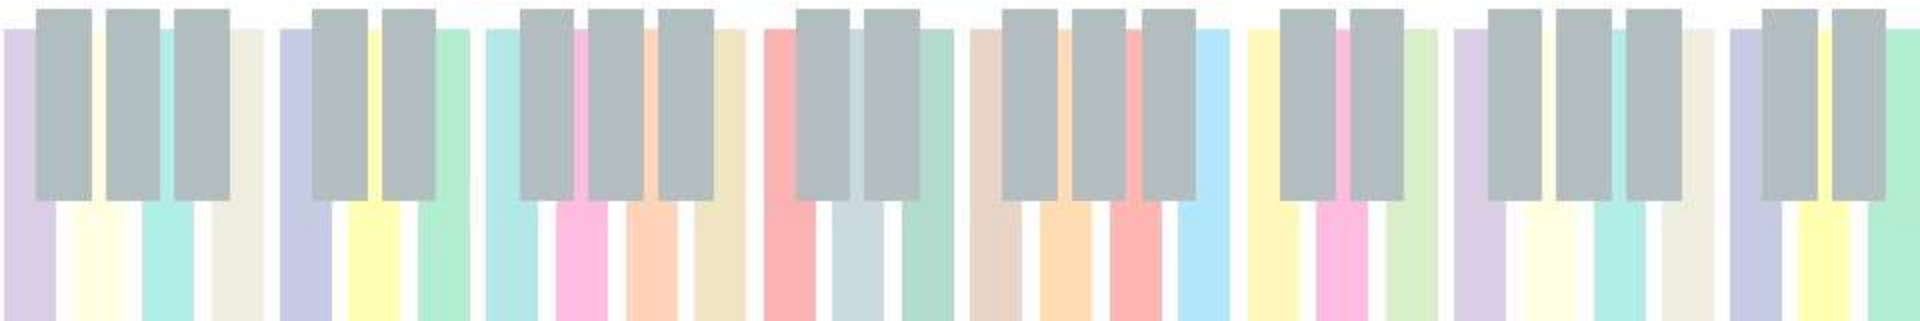

Yearly testing of new varieties

Top Quality

- Sorting is done by hand with special attention to each stem
- Each bunch is inspected for uniformity and quality
- Owner is personally involved in each step of the quality inspections
- Each stem is treated for maximum vase life.

Full cycle of attention
Selection * Propagation * Growing

For the love of the land....

In an era when urbanization is taking over farm land in the center of Israel.
With soaring land prices.

It is only the love for the land and determination that keep Ofer fighting the urbanization by growing his flowers and keeping the land green

Ofer's wax assortment :

Orchid

Feb - March

Early Violate
Nov - Dec

Wave
Jan -Feb

Eve
Feb - April

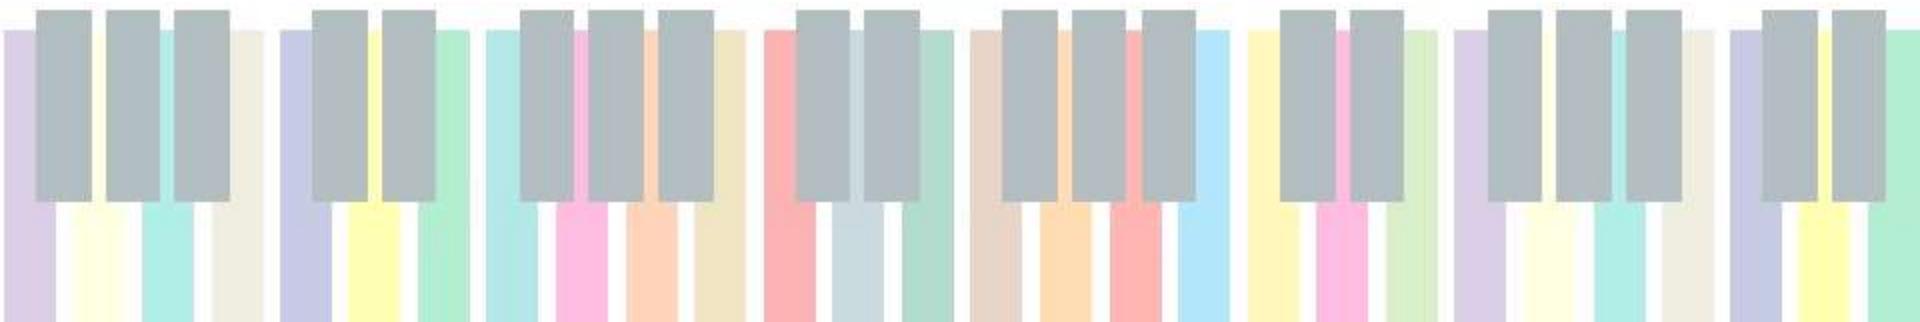

Snow Flex
April – Mid May

Ofer's Vision

- To prolong the season from October till may with his own varieties
- To improve quality by using advanced growing technology
- To continue his breeding program, adding special new varieties to his selection
